Objective

Results-driven Frontend Developer with a strong foundation in HTML, CSS, and JavaScript, specializing in building dynamic and user-friendly web interfaces using React. Adept at creating responsive, accessible designs and collaborating effectively through GitHub for version control and team projects.

Projects

Quiz App (Team Project) | January 2025

Github: [Quiz App](#)

A responsive website with authentication for instructor and student portals. Instructors can manage student groups (CRUD), set group sizes, create quizzes, and view results. Students can view and take upcoming quizzes. Completed as part of a collaborative team effort.

- Tech Used: React, Tailwind, Redux

Hotel Management System (Team Project) | January 2025

Github: [Hms](#) , Live link (Netlify): [Hms](#)

- Engineered a comprehensive Hotel Management System that included secure authentication and dual user portals, allowing seamless management of over 200 room listings with efficient CRUD operations to improve operational efficiency.
- Tech Used: React, Material-UI

Food App | December 2024

Github: [FoodApp](#) , Live link (Vercel): [FoodApp](#)

- A responsive website built with advanced front-end technologies that integrates API-driven data. It includes a CRUD system for recipes, categories, and users, featuring separate user and admin portals.
- Tech Used: Bootstrap, React

E-Commerce Website | August 2024

Github: [E-commerce](#) , Live link (Vercel): [E-commerce](#)

- Responsive website built using advanced front-end technologies and data from an API.
- Tech Used: Tailwind, React

Yummy App | July 2024

Github: [Yummy-App](#) , Live link (GitHub Pages): [Yummy-App](#)

- A responsive website displaying a list of meals, with filtering and search functionalities.
- Tech Used: HTML, CSS, Bootstrap, OOP JavaScript

Technical and Soft Skills

Languages: HTML, CSS, JavaScript, React JS, TypeScript

Frameworks: Bootstrap, Tailwind CSS, Material UI, Redux

Tools: GitHub, Postman, Figma, Swagger

Methodologies: Agile, Web API

SoftSkills: Communication Skills, Problem-Solving, Teamwork and Collaboration, Continuous Learning

Education

Canadian International College (CIC) — GPA: 3.87

2022 – 2026

Bachelor of Business Technology

Cairo, Egypt

- Enrolled in a dual degree program jointly offered by Canadian International College (CIC) and Cape Breton University, Canada.
- Will receive two certificates upon graduation: one from Canadian International College (CIC) and another from Cape Breton University (CBU).
